

Trey Anderson

I've had the privilege of coaching Trey for a year now. Trey is a hard working young man who I can always count on to be at practices and games. He is always on time and brings energy to the team every day. His hustle and attitude impress our staff regularly. He is versatile and welcomes the opportunities to play multiple positions and always gives his best effort no matter where he is on the field. Trey has never been afraid to put his body on the line to win games, hustling and diving all over the field on defense. The same goes for offense and base running. He is stubborn at the plate and will not go down without a fight. His balanced stance and great barrel control has vastly improved over this year. On the bases he has great instincts, awareness, and speed. Trey never gets too up or down. He is level headed and does a fantastic job at controlling what he can control.
